

St Andrew's C of E Maghull Knowledge Organiser

Year 2 - Spring 1 - Introduction to Food Chains

Knowledge:

- Can identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other
- Can identify and name a variety of plants and animals in their habitats, including micro-habitats.
- Can describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.

Vocabulary:

Habitat – the natural home or environment of a living thing

Food chain – a series of organisms each dependent on the next as a source of food

Suitable – right or appropriate for a particular purpose

Basic needs – food, shelter, clothing (for humans)

Lesson Sequence:

Lesson 1

I can explain how animals get food.

Lesson 2

I can order different plants and animals in a simple food chain.

Lesson 3

I can create food chains and talk about different roles played by plants and animals.

Lesson 4

I can compare the food chains that I have created with other food chains.

Coastal

Freshwater

Arid

Polar

Forest

Urban
